PAMPA

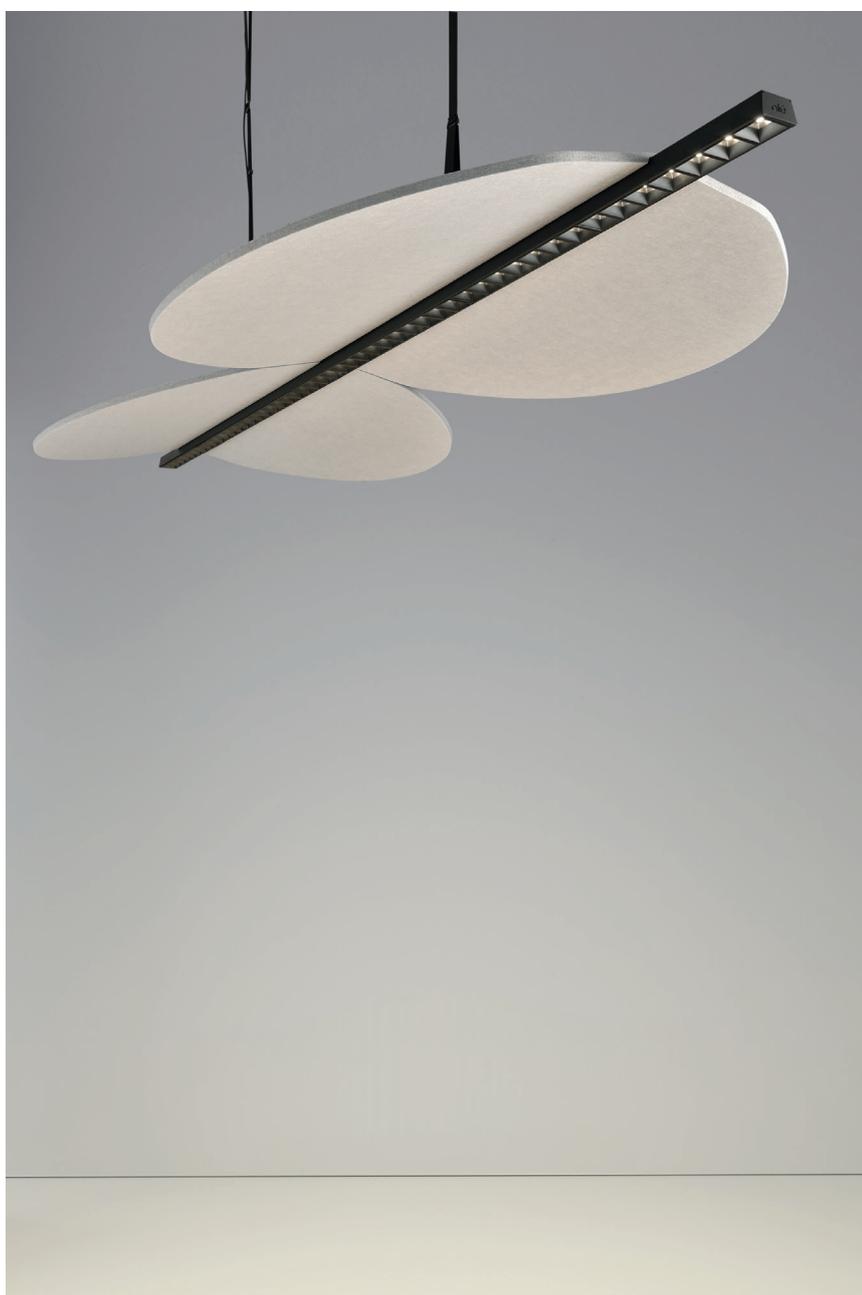

MADE WITH RECYCLED MATERIALS

The essence of PAMPA is to provide an optimal environment in workspaces. It is designed to illuminate properly, while supporting the soundproofing of a space. Thanks to the sound-absorbing material, it reduces noise, and with UGR glare control technology, it ensures uniform light distribution, minimising disturbing reflections.

La esencia de PAMPA es proporcionar un entorno óptimo en espacios de trabajo. Se trata de un diseño ideado para iluminar adecuadamente, a la vez que sirve de apoyo a la insonorización de un espacio. Gracias al material fonoabsorbente consigue reducir el ruido, y con la tecnología de control de deslumbramiento UGR, garantiza una distribución de luz uniforme, minimizando los reflejos molestos.

KATANA

A practical and useful design in different areas. KATANA is a suspension that consists of an extruded aluminium profile with UGR and suspended by belt. In addition, it has a manual orientation system that allows to bathe walls. KATANA provides the right lighting and functionality both for work environments and for spaces dedicated to exhibitions, museums or art galleries.

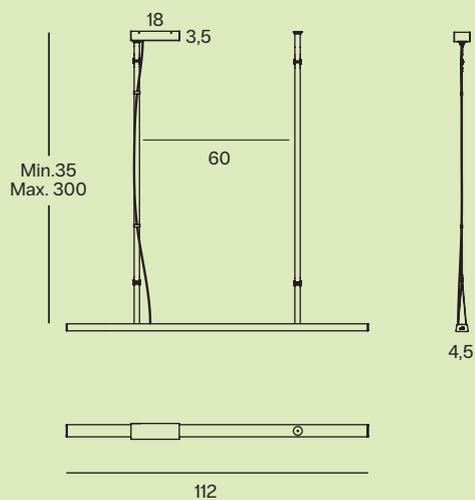

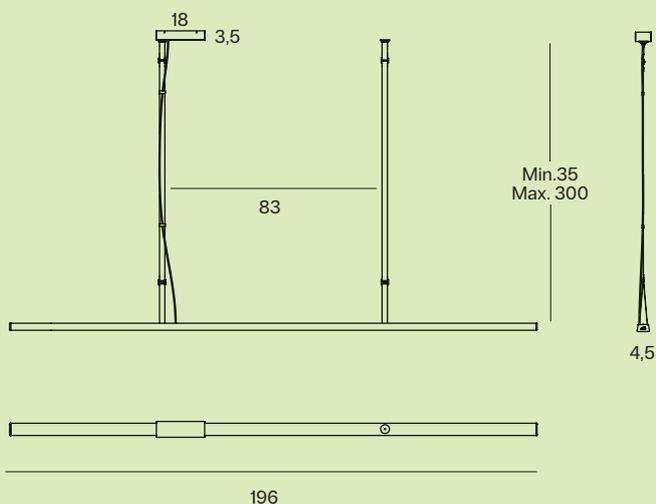

Un diseño práctico y útil en diferentes ámbitos. KATANA es un colgante que consiste en un perfil de extrusión de aluminio con UGR y suspendido por cintas. Además, cuenta con un sistema manual de orientación que permite bañar paredes. KATANA aporta la iluminación y funcionalidad adecuadas tanto para entornos de trabajo, como para espacios dedicados a exposiciones, museos o galerías de arte.

CELESTE

MADE WITH RECYCLED MATERIALS

CELESTE embodies the harmony between art and science, where light becomes a medium for exploring beauty and comfort. More than just a decorative piece, this lamp serves as a bridge to aesthetic experience and introspection.

By combining an acoustic material with a linear luminaire, this design by Rafa Ortega creates an atmosphere that invites contemplation. It reminds us how sound and silence shape our interactions and human connections, prompting reflection on the importance of communication and attentive listening in our relationships.

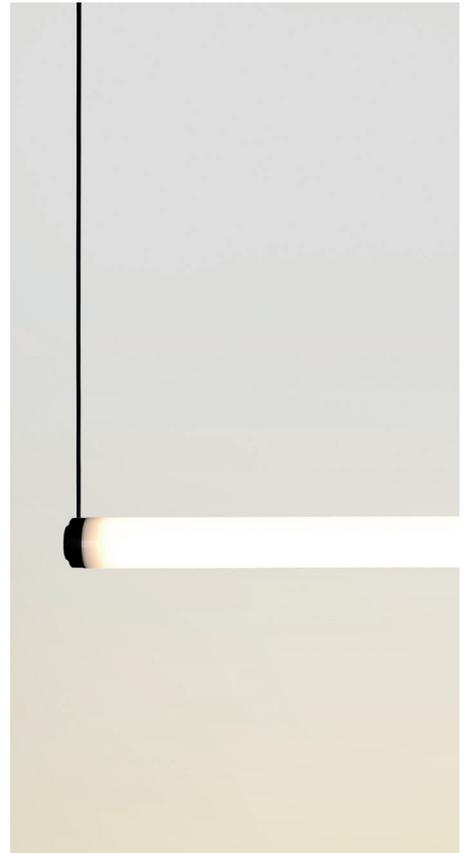

CELESTE simboliza la armonía entre el arte y la ciencia, donde la luz se convierte en un medio para explorar la belleza y el confort. Así, la lámpara no es solo un objeto decorativo, sino un puente hacia la experiencia estética y la introspección.

Al combinar un material acústico con una luminaria en línea, este diseño de Rafa Ortega crea una atmósfera que invita a la contemplación. Nos recuerda como el sonido y el silencio afectan nuestras interacciones y conexiones humanas, haciéndonos reflexionar sobre la importancia de la comunicación y la escucha en nuestras relaciones.

SONORA

MADE WITH RECYCLED MATERIALS

A combination of functionality and design. The Sonora desert is a natural environment where nothing is heard but the placid sound of nature. Thus, this family of ceiling and suspension lights is designed with high quality sound-absorbent material to reduce ambient noise while illuminating the space, creating a more peaceful and welcoming atmosphere.

Una combinación de funcionalidad y diseño. El desierto de Sonora es un entorno natural donde no se escucha más que el plácido sonido de la naturaleza. Así, esta familia de plafones y colgantes está diseñada con material fonoabsorbente de alta calidad para reducir el ruido ambiental a la vez que iluminan el espacio, creando una atmósfera más tranquila y acogedora.
